Mini symposium: Circular RNAs (circRNAs) in human diseases

Session 1: Translated circRNAs in neuropsychiatric disorders

Translation of circular RNAs as contributors of Alzheimer's disease

Prof. Stefan Stamm

Department for Molecular and Cellular Biochemistry
University of Kentucky
USA

Session 2: Translated circRNAs in cancer

Decoding the roles of oncogenic coding circRNA in metabolic rewiring

Prof. Kuei-Yang Hsiao (蕭貴陽)

Institute of Biochemistry
National Chung Hsing University

Session 3: Non-translated circRNAs in cancer

The roles of circRNAs in lung adenocarcinoma

Prof. Mong-Lien Wang (王夢蓮)

Department of Medical Research
Taipei Veterans General Hospital

10:00AM-12:10PM

Wednesday, January 14, 2026

1F Auditorium, Genomics Research Center

Host: Dr. Trees-Juen Chuang 莊樹諄研究員

~ 公開演講，歡迎參加 ~
