

BRIEF CURRICULUM VITAE OF NGUYEN VAN THUAN
Department of Biotechnology - School of Biotechnology
International University – Vietnam National University of Hochiminh City

Professor Nguyen Van Thuan is the Dean of the School of Biotechnology and Chair of the Department of Biotechnology, International University – Vietnam National University – Hochiminh City – Vietnam (<https://bt.hcmiu.edu.vn/faculty-members/dean-office>). Dr. Thuan is also leader of the Laboratory for Cellular Reprogramming (<http://crl.hcmiu.edu.vn/>) where his research focuses on somatic cell reprogramming, embryonic stem (ES) cells, induced pluripotent stem (iPS) cells, early embryos development, germ cells, epigenetic reprogramming, transgenic animals, and regenerative biomedicine.

Dr. Thuan obtained his Ph.D. in the field of Biosystem Application in 2002 from Kobe University, Kobe City, Japan. Prior to joining International University, he served as a Professor in the Department of Animal Biotechnology at Konkuk University, Seoul, Korea (2007-2012). Before that. He was a post-doctoral researcher at the Laboratory for genomic reprogramming at the Center for Developmental Biology, RIKEN-Kobe, Japan (2002-2007).

Dr. Thuan is the founder and chairman of Asian Reproductive Biotechnology Society (2002-2013). He serves as a reviewer for numerous scientific journals of Biology of Reproduction, Reproduction, Theriogenology, Developmental Biology, Reproduction and Development, journal of Veterinary Medical Science, Human Reproduction, Fertility and Development, Development, Cloning and Stem cells, and Cell cycle. He is a member of the International Embryo Transfer Society (IETS, USA), Society for the Study of Reproduction (SSR, USA), Society of Reproduction and Development (JRD, Japan) and Asian Reproductive Biotechnology Society.
